## PACKERS NOT PUTTING UP PRICES BECAUSE OF WAR-ARMOUR

Shortage of Receipts Due to Shortage of Livestock; Farmers Hold Back

CHICAGO, Aug. 12.—Receipts at the stock yards here for the last two weeks have been approaching a famine. According to a statement issued today by J. Gordon Armour, president of Armour & Co. At the same time Mr. Armour made vigorous denials of a charge that packers have made the European war an excuse to put up prices. During the last two weeks Armour & Co. have killed fewer hogs than during any similar period in the history of the concern, the statement says.

The nine Armour plants altogether killed only 14,736 hogs last week against 22,348 the week before the war. The statements add: They killed only 17,512 cattle last week as against 21,850 the week before the war and only 30,974 sheep last week as against 46,395 the week before the war.

Mr. Armour said the shortage of receipts was due to an actual shortage of livestock with which the packers have been contending for weeks together. "The financial situation of the product to hold back his stock in hopes of war time prices," he said. "The financial situation everywhere which fortunately is a thing of the past made it impossible for buyers and shippers in the stock growing sections to send stock to market."

**Farmers Hold Back**  
"Then," Washington sent out and properly so official advice to farmers to hold their crops. While this was addressed directly to cotton and wheat growers it had its effect upon all farmer producers. These circumstances added to the livestock shortage caused fluctuations which nobody could control. The conditions are fast becoming normal and prices soon will be on a more even basis.

Our Chicago plant has a killing capacity of more than 40,000 hogs a week. It has killed only 5,025 Kansas City has killed the same number and killed only 2,012. Our East St. Louis plant killed 504 and 585 hogs last week.

There are first hand facts from our own business. They are to be paralleled in that of every other packing company. Only the other day we were able to fill but one-third of an order from one of the nations at war because the raw material could not be obtained.

Our business men are as patriotic as any other element in our population and are not looking for a chance to squeeze an extra dollar out of anybody. If we all keep cool and avoid hysterics we will pull through this unusual situation to the satisfaction of everybody.

**Wants Meat Kept in U. S.**  
John T. Russell, president of the Master Butchers' association, sent a letter to President Wilson asking him to forbid the exportation of meat from this country on the grounds that it is a shortage of the supply and it is a national emergency to keep it in the country.

Total livestock receipts last week were the smallest since the strike at the stock yards in 1914, according to Arthur G. Leonard, president of the Chicago Union Stock Yards. The 2704 carloads being less than some times has been received in a single day.

The combined receipts at the six principal western livestock markets for the last month show even greater declines than Chicago. The receipts were 1,600 cattle, 27,000 hogs and 14,000 sheep less than during the corresponding month of 1913.

**Redfield Investigating**  
WASHINGTON, Aug. 12.—Three resolutions calling for information as to war prices, but foodstuffs in the United States were referred to Secretary Redfield today by Chairman Adamson of the house interstate and foreign commerce committee. All of the resolutions call upon the department of commerce to explain why prices have gone up when the exportation of food practically has been stopped by the Europeans.

## UNTIL WAGE SYSTEM IS ABOLISHED WORLD WON'T BE AT REST-BLETHEN

Jobs Will Cure Social Unrest, Says Publisher of Seattle Newspaper

SEATTLE, Wash., Aug. 12.—Scores of industrial workers of the world crowded today into the hearing room of the federal relations commission and until silenced by a sharp rebuke from Commissioner Linn, a reflected their views of the testimony by applause, laughter or muttering.

The testimony of the American and British publishers of the Seattle Times and James P. Blethen, who organized the Industrial Workers of the World on the 1st of May, 1905, Mass. strike, touched frequently the organization, Colonel Blethen, who has fought the industrial workers of the world movement through a newspaper, caused amusement with his humorous account of gatherings of his followers of the organization under his five windows, often with the purpose he said of telling what a sap of a gun he was. His employees on an upper floor frequently left their work to hear him, he said. Mr. Blethen's applause followed this statement and the column laughed.

The way to cure social unrest is to give men jobs, Colonel Blethen told the committee. Men who are employed are happy and those who are idle are unhappy. Unemployment is the cause of social unrest and out of it grows street spectacles as we see all at the talk of the Industrial Workers of the World. I do not think he can get into public streets.

The strike, he said, and the boycott, are all a part of the same thing. The day has arrived when employers and employees should sit down and talk. Mr. Thompson said that a newspaper man has a right to say what he thinks. He has a right to say what he thinks. He has a right to say what he thinks.

Until the wage system is abolished the world will not be at rest, he said. The working class should organize as a class and enforce its demands. The way to cure social unrest is to give men jobs.

**Western Union Tells of Cable Situation**  
NEW YORK, Aug. 12.—The status of the Western Union Telegraph company's cable situation resulting from the European war was described by the company in a detailed tonight and shows that the Western Union has no telegraphic connection with Germany, Austria and Hungary while all the cables leading to other countries in the Atlantic and Pacific are kept open.

Large words in ablegments to the affected countries are barred altogether and undoubtedly will be the company believes. All the war is over. Through a cable available channel the Western Union is endeavoring to secure a substantial indication of what it describes as the existing burden, some restrictions which have been imposed by the British authorities.

**BAILEY TO BE CANDIDATE FOR U. S. SENATOR IN '16**

EL PASO, Tex., Aug. 12.—Former United States Senator Joseph Bailey will be candidate for nomination as United States senator in 1916, he announced at the Democratic state convention here. Defending his platform resolutions which denounced national prohibition and woman suffrage. Mr. Bailey declared that if the resolutions were defeated he would take the issue before the people of Texas as a candidate for senator. The resolutions were rejected 64 to 16.

The convention declared Jeff McLeane of Dallas nominee for congressman at large.

W. M. Roads of Indianapolis, Ind., is touring Michigan on a motorcycle.

## HOW UNCLE SAM SPENDS HIS TAXES

Ray Stannard Baker in the American Magazine

I have never liked the idea of having my dose of taxation administered in a mouthful of sugar. As a help to buy a warship for example I want to know it when I send an army to Mexico contributing my mite when I buy a new coat or take a sip of coffee I want to know that it is a reasonable when I help pay for enormous pork barrel appropriations or for postoffice buildings that are not needed that I shall be informed as to what I am really doing.

Under the old indirect method of taxation (by which we still continue to raise most of our revenues) few people have felt any concern in what the government was spending. But with the inauguration of a new system of direct taxation the income tax several hundred thousands of Americans will be feeling this year for the first time what it really means to help by a warship and pay for unnecessary postoffice.

The very first thing that struck me and struck hard was the fact that in 10 years (and only a little over 16 years ago) over 40 cents of every dollar that Uncle Sam collects from you and me (directly or indirectly) goes for military purposes. Including continuing expenses of past wars—pensions.

I think that few people realize what this means in a nation which could be itself peculiarly devoted to peace. Sixty-three per cent to the army, navy and pensions and only 37 per cent for all the other vast and needed purposes of the government excluding postal service and the transportation building fund, required by law but not provided in fact. This 37 per cent only is available for building the Panama canal, improving our rivers and harbors, supporting the Indians, encouraging agriculture, public health and education. It is nothing of taking care of the main machinery of civil government—congress, executive, courts and the diplomatic and consular service.

In the estimates for the new year the expenditure of the government for all purposes (with the exception of postal service) reaches the vast sum of \$400,000,000. Of this \$260,000,000 goes for military purposes and 45 per cent of this goes for pensions, retirements and interest on war debts.

I find as I said that out of my dollar 37 cents goes for war. As a citizen I don't want any war. The next largest proportion is paid in military pensions and interest on war debts. I don't want any war. The next largest proportion is paid in military pensions and interest on war debts.

The next largest item is for the encouragement of agriculture, fisheries and forestry, the great agricultural department at Washington, the agricultural colleges and the control of national forests. This costs me four cents a year out of my dollar and is money well expended. It shows me how to grow my potatoes more scientifically and give me hints on chicken-raising which were worth a good deal more than 4 cents on the dollar of the taxes I paid.

The next largest expense was 3 cents for building the Panama canal which I pay with complete satisfaction. I feel I'm getting my money's worth. Goethals is using my 3 cents in a way that I'm proud of. If makes me proud every time I think of my connection with this job and the more I think of it the prouder I grow. I'd give Goethals a cent more at least. If he could be needed for his decision there honestly looking after my interests.

I suppose I've got to keep on paying a cent and a half a year to feed and clothe the Indians and see that they are not immediately extinguished by too close contact with Christian civilization. Never mind I charge it up to rental on land and hope that some day to the Indian may buy a farm and settle down as a citizen of the republic. I believe that self-support will be far better for him and I shall be my cent and a half a year.

Now there isn't a better two stage show in America than congress and it's not only amusing but a highly moral show. I consider one cent a year a moderate price for the amusement and education which it provides.

I've tried to calculate and can't the fraction of a cent the small number of mills I have to pay yearly to keep Mr. Wilson in the White house. It makes me feel almost as though I were getting something for nothing. At least it's a real bargain.

When I think of the disproportion in my payments between the things I don't want such as 61 cents a year for war and the things I do want—such as 4 cents for agricultural improvements and 1 cent for the Panama canal—half a cent for assisting the working classes half a cent for the entire diplomatic and con-

## EDWARD P. AMORY IS MURDERED IN CHICAGO

Secretary of Western Railroad Association Found Dead in Office. Assistant Unknown

CHICAGO, Aug. 12.—Edward P. Amory, secretary of the Western Railroad Association, was found dead in a pool of blood in his office in a downtown office building late today. There were two deep cuts on his head. The police believe he was murdered.

Papers and books scattered about the room indicated that a struggle had taken place. A. M. Thompson, an employee, who discovered the body, was taken to the police bureau for identification where an impression of his finger tips was taken.

Miss Janet Schoen, Amory's stenographer, told the police she had gone to the office at the usual time this morning, but had been unable to enter. She waited until this afternoon and then left for home.

A note in Amory's handwriting was found on his desk. It was scribbled on a piece of yellow scratch paper and was unintelligible to the police. It read: "Libel and scandal. 3 Russell and 3888. Will be malice."

The police believe the note was written after Amory had been injured and was his dying effort to leave a message to his secretary. Apparently he had made a terrific struggle.

Amory, 40, was a well-known author. He had been in Chicago for some time. He was a member of the American Railway Union and had been active in the union's efforts to organize the workers.

A motor vehicle was taken the place of three bodies formerly used by the Chicago Department store of Toyska. The Chicago company says that the bodies had been used for many years.

## Allies Prepared to Strike Effectively When Hour Arrives

BRUSSELS, via Paris, Aug. 12.—A report that operations on an extensive scale were imminent, a correspondent by permission of the war control made a circuit along 20 miles of the Belgian front, visiting the extreme advance and talking with the officers and men.

The Belgians are on the alert as important bodies of German cavalry are making their way through the country along a large proceeding in the direction of Tongues and St. Trond. The impression of the correspondent is that no heavy fighting is likely in Belgium. The Germans have little or no infantry. By the opposition offered by the Belgian troops at Liege the Germans have been prevented from proceeding further.

The allied forces have been so disposed as to be supported by a fortified position at many of the chief points, but little or nothing has been done around Brussels and it is thought the city is being used as a bait to attract the Germans.

It is certain that the preparations have been made in the ally's army spread-out for battle and they are likely to move into it when the hour to strike comes.

## WOULD SUSPEND GOLD RESERVE REQUIREMENTS

(Continued From Page One.)  
of the reserves it was probable that only a small percentage of the reserve, 10 per cent., would be thus made up.

**Will Be No Heavy Expectation.**  
The opinion as expressed in the financial circles tonight that any steps looking toward suspension of gold exportation of considerable amount would be met with strong opposition. Bankers who favored the action, however, thought that the plan to be adopted there would be in their opinion, no suspension of gold, since accumulation of gold credits would be utilized for payment of American grain and other exports.

## CARRANZA HOLDS UP VILLA'S AMMUNITION

(Continued From Page One.)  
communication to Carranza that if Carranza's army was not given and arms declared a counter revolution undoubtedly will follow, and an effort be made to join Villa with Carranza.

George C. Carothers, special agent of the late department with General Villa, has left here after many conferences with Carranza and will resume his work of reporting to the American government on the activities of Villa.

## ON TWO-YEAR TOUR

Starting from St. Louis last fall, Mr. and Mrs. D. D. Kessle have covered more than 5,000 miles of a motor-circuit tour of the United States. The Kessles went first to New England and then down the coast to Florida. They will soon start for the west and expect to attend the exposition in San Francisco next year.

## Proctis Cured by a Famous Remedy

Most Troubles of Skin are cured by Proctis.  
Get a good, firm grip on proctis by using S. S. S. the famous blood purifier. Those itching, pimply, red, inflamed, and everything else you have despaired of, but let S. S. S. bathe your blood and you will quickly observe a wonderful change.  
S. S. S. exerts a dominating influence in the myriad of blood vessels that compose the skin.  
Its principal action is to assist in that wonderful process whereby the broken down cells in the skin and their deadened nerve threads are rebuilt by new material from a purified and quickened blood stream.  
This process goes on every second throughout the body from the time that S. S. S. enters the blood. It has traversed the entire system in about three minutes. Its action is therefore very rapid, never less than 12 hours with the same co-operative effort.  
S. S. S. has been a marvel to overcome every form of skin trouble and for a fully illustrated book, write to The S. S. S. Co., 102 Swift Bldg., Atlanta, Ga. Get a bottle of S. S. S. 10¢ in any drug store or by mail. Refuse all substitutes.

## European War Bulletins

SAN FRANCISCO, Aug. 12.—The German cruiser Leipzig is steaming into this port for coal.

ST. PETERSBURG, Aug. 12, via London (Aug. 12, 1:30 p. m.).—It is announced officially that German aeroplanes have been carrying on extensive maneuvers along the Russian frontier, but have done no damage.

LONDON, Aug. 12 (Thursday, 2:55 p. m.).—A Brussels dispatch to the Daily Chronicle says that the German army is reported on his way to take personal command of the German army in Belgium.

LONDON, Aug. 12 (Thursday, 4:10 p. m.).—The Telegraph's military correspondent at Paris declares: several German army corps are assembled around Metz and extend in the form of a triangle from Metz to Treves and Luxemburg. While a still stronger force is stretched across Belgian Luxemburg and Namur provinces.

LONDON, Aug. 12 (Thursday).—A dispatch to the Daily Mail from Brussels says that a German spy was caught in close proximity to King Albert, who is at Louvain.

ST. PETERSBURG, via London, Aug. 12 (Thursday, 4:50 p. m.).—The Austrian troops on the Russian frontier have been placed under the command of a German general. The news is confirmed that certain divisions of Austrian forces comprising Tyrolean Czechs regiments have been transported to French territory.

LONDON, Aug. 12 (Thursday, 5 p. m.).—The Daily Mail says it learns that on Monday, after the fruitless assault by the Germans on the Liege forts, the German government again approached Belgium through Holland and intended to be at war with her and asked the Belgian government to reconsider its refusal to allow the Germans to travel in Belgium in order to save useless expenditure in blood and treasure. The Belgian government, according to the newspaper, made reply, again refusing the German request.

LONDON, Aug. 12 (Thursday, 1:30 p. m.).—The Exchange Telegraph's Brussels correspondent, telegraphing Wednesday, says: "The Belgians have routed the Germans in a fierce encounter between the Belgian left wing and named German cavalry, infantry and artillery. The Belgians displayed wonderful control under the fierce fire, and their victory has aroused the liveliest enthusiasm along the whole line of the allied troops."

LONDON, Aug. 12 (Thursday, 2 p. m.).—A Berlin dispatch to the Daily Telegraph says the German staff admits heavy losses on the Russian frontier.

BERLIN, via London, Aug. 12 (Thursday, 11:55 a. m.).—The German troops near Muehlenheim have captured 10 French officers, 100 men, four guns, 10 wagons and many rifles. According to the report, German territory has been cleared of the French. It is also stated that at least 1,000 German troops took more than 1,000 prisoners, about one-sixth of the two defeated French regiments.

ST. PETERSBURG, via London, Aug. 12 (11:45 p. m.).—An attempt by the Germans to occupy Eydtukhnen, east Prussia, one of the points to which Russian troops are concentrated early in the war, has failed. The Germans, consisting of a detachment of infantry with artillery, were repulsed with loss.

BRUSSELS, via London, Aug. 12 (7:40 p. m.).—A regiment of dragoons coming from the direction of Liege, and who attempted to surprise the Belgians at Anleff, in the province of Liege, were driven off, leaving 153 dead and 102 prisoners. Uhlans have taken upward of \$400,000 from the bank at Hasselt, capital of the province of Limburg.

LONDON, Aug. 12 (11:45 p. m.).—Arrangements have been made for the departure tomorrow of the Austro-Hungarian ambassador, Count A. Mensdorff-Pouilly-Dietrichstein, who has been in England for 15 years as secretary, minister and ambassador, respectively, and who is one of the most intimate friends of the British royal family.

PARIS, Aug. 12 (11 p. m.).—A dispatch from St. Petersburg to the Matin says: "The Austrians have suffered a check on the Danube river. Four regiments of Austrian infantry and eight regiments of Uhlans were routed. The approaching big battle probably will be a decisive one."

BRUSSELS, via Paris, Aug. 12 (Thursday, 2:35 a. m.).—Belgian and French troops have effected a junction south of Brussels. The German advance in the Belgian provinces of Limburg and Brabant has been checked. The German advance bringing up heavy artillery against Liege.

ISLE OF RHODE, N. H., Aug. 12.—The sound of big guns, apparently coming from the open sea, was heard today gave rise to reports that a naval engagement had taken place off the New England coast. The reports, however, could not be substantiated.

## FIRST AMERICAN REFUGEES LAND IN NEW YORK WITH TALES OF WOE

(Continued From Page One)

Switzerland, on July 31. She left for Paris on that date. She had a first-class ticket but was forced to occupy a third-class compartment with a crowd of soldiers and sailors.

She sat on the floor of the car during the entire trip. In Paris she was informed by another American that she had just time to catch the last train for Calais, where she could get a boat across the channel. She boarded her baggage in the street and reached a railway station a few minutes before the train left.

Five thousand American and English men and women were trying to get on the train, she said. Some of them rode behind the coaches rather than left behind. There was no water on any of the trains. Upon arriving at Calais, Mrs. Blackmore was faint from want of food and water. An American who had never sailed before obtained both for her.

Howard L. Willett of Chicago, left Paris on the train with Mrs. Blackmore. He told a similar story and added that the train was stopped several times by soldiers who went through it searching, they said, for German spies. In Paris, before he left, he saw a gendarme seize a German, who he said was acting suspiciously, and march him toward a police station. A crowd of excited Frenchmen followed in the wake of the pair. A passing German protested and some one in the crowd struck him in the face and knocked him down. At the same time the gendarme severely punished the man he had arrested. The German protested mildly against this, but did not fight back. Mr. Willett said, because of the menacing crowd. A brief of 10¢ for 2 cents was left Paris. Other foodstuffs were shared proportionately.

Met Jack Johnson on the boulevard, said Mr. Willett. "The face was wreathed in smiles. Ciolek surrounded him asking him to fight for France."

A committee formed on board the Philadelphia this afternoon with the expressed purpose of assisting Americans abroad issued a statement through its secretary, Thomas Gilroy of New York.

"No words can exaggerate the desperate straits of stranded Americans all over Europe outside of England," the statement says.

Many of the passengers said they had been stopped in Germany and forced to prove that they were American and not Englishmen. Others had been stopped in France and asked whether they were German. With a few exceptions, all the stranded courtously asked that they be treated as Americans.

One or two cases were reported where soldiers searching trains had been unkind to the refugees. Soldiers were

stationed all along the railroads and squads of them were guarding every tunnel and bridge. Military guards with loaded rifles were on every railroad coach and engine and in all the stations.

Among the passengers were Charles Aldrich and family of Cleveland, to whom some one in London offered \$1,000 for their stay in London or \$500 if allowed to travel with them, and Mrs. James T. Harahan, widow of the former president of the Illinois Central railroad, who, with her niece, Miss Martha Harris of Memphis, Tenn., fled from St. Petersburg on August 1.

Among the members of the relief committee is Bishop J. W. Atwood of Arizona.

John A. Wilson of Franklin, Pa., President Wilson's cousin, willingly announced on the pier that he believed he had less money and more summer clothes than any other man in New York. He carried with him a set of golf clubs presented to President Wilson by the City Lunchclub of London and which he was commissioned to bring over.

Mr. Wilson said he would go to Washington to present the golf clubs to President Wilson.

## PROTECTS MELON PATCH

The motorcycle has solved the problem for Al Lange of Stockton, of how to protect his watermelon patch from boys and from tourists who have been in the habit of helping themselves to melons. So successful has the speedy two-wheeler been in overtaking the culprits that the number of trespassers has been materially decreased.

E. G. Buckley of Jacksonville, Fla., has just completed a four-week motorcycle tour of the east. Detroit, Cleveland, Buffalo, New York, Washington and Boston were included in the cities visited by Buckley.

## HARVESTER CO. IS ORDERED TO DISSOLVE

(Continued From Page One)

Independently grow, and even a combination of two or more businesses if it does not unreasonably restrain trade, is not illegal; but it is the combination which unreasonably restrains trade that is illegal, and if the parties in controversy have 80 per cent of the American business, and by the combination of the companies all competition is eliminated between the constituent parts of the combination, then it is in restraint of trade within the meaning of the statutes under all of the decisions.

"The defendants claim that the objects of the organization were: First, to build up the foreign trade; second, by the combination, to secure more capital; to enable them to continue the battle in the foreign market; third, by enlarging the scope of the business so as to include other lines of agricultural implements to make an all-the-year-around business. They also claim that it was not the intention to oppress the domestic market, and that they have not done so."

The real question is whether the combination of the companies was illegal in its beginning or became so with the additions subsequently made.

"We conclude that the International Harvester company was formed from the beginning in violation of the first and second sections of the Sherman law, and that this combination was constituted by the reorganization of the American company and by the subsequent acquisitions of competing plants, and that all the defendants' subsidiary companies became from time to time parties to the illegal combination, and the defendant companies are combined to monopolize a part of the interstate and foreign trade."

Dissenting Opinion.

Judge Sanborn, dissenting, says with profound respect for the judgment of his court associates, he finds himself forced to dissent from them in this opinion, and in part says:

"First, because it seems to me to give insufficient consideration to the trade conduct of the defendant at the time this suit was commenced, in April, 1912, and for seven years before that date."

"Second, because the crucial issue in this case is not whether or not in 1903 or 1904 the defendant or their predecessors by reason of the suppression of competition between five or more companies made a combination of an attempted monopoly in restraint of trade, but it is whether or not there afterward, in 1912, when the complaint in this suit was filed, the international companies and the other defendants were then unduly or unconsciously restraining or monopolizing interstate or foreign trade, or threatening to do so, and."

"Third, because the evidence in this case has forced upon my mind the deep and abiding conviction that for at least seven years before the commencement of this suit defendants had not been and then were not either doing or threatening to do so."

The suit was filed April 30, 1912, in the federal district court at St. Paul. In its petition the government asked that the \$100,000,000 corporation be dissolved on the ground that it was a monopoly in restraint of trade.

That injunctions be issued to bar from interstate commerce the products of the International Harvester company or of the International Harvester Company of America, its selling agency.

That receivers be appointed to take charge of the property and wind up the business of the defendant, if the court finds such action compatible with public interests.

"Advanced Prices Harmful."  
The chief charges by the government against the Harvester company were: That the company in monopolizing the sale and manufacture of harvesting machinery had advanced prices to the grave injury of the farmer and the general public.

That the company controls at least 90 per cent of the trade in the United States in harvesters or grain binders, 75 per cent of the mowers and more than 50 per cent of the binder twines.

That the company had absorbed competing companies while allowing these companies still to advertise as being independent, thereby misleading, deceiving and defrauding the public and more effectively crippling existing competitors and keeping out new ones."

That the defendants resorted to unfair trade methods by attempting to induce agents to handle only their products.

That it bought up patents to perpetuate the monopoly.

That in organizing the International Harvester company the defendants planned to form a monopoly.

That the company bound retail dealers by contract not to sell the products of other manufacturers.

That the Harvester company received iron, steel and lumber from the Wisconsin Steel company and the Wisconsin Lumber company, subsidiaries, which were used to eliminate competition.

That the company used railroads under its control to obtain preference from connecting roads.

The International Harvester company was organized in New Jersey in 1902. Prior to that time, the government declared, there were 10 or 12 establishments competing in the manufacture and sale of harvesting implements.

The alleged trust was formed through the combination of the McCormick Harvesting Machine company of Illinois, the Deere company of Illinois, the Plano Manufacturing company of Illinois, Wadler, Bushnell & Gleason company of Ohio and the Milwaukee Harvester company.

## PLANS FOR RELIEF AMERICANS ABROAD BY VIOP RAPIDLY

Embassies and Legations Are  
Authorized to Charter  
All Ships Needed

WASHINGTON, Aug. 12.—The Washington government's measures for the relief of Americans in Europe and plans of the Red Cross to send an expedition to the war zones developed rapidly today. American embassies and legations throughout Europe were authorized by Secretary Garrison to charter ships in which to bring home citizens of the United States.

Information received at the state department gave assurances that the British order against the entry of aliens into England was not meant to apply to Americans on the continent who are trying to return to the United States by way of English ports.

Difficulties over the transmission of code messages between Berlin and Washington partially were removed when an understanding was reached with the British foreign office that the censor should not impede messages between the American state department and the Berlin foreign office, or American legations in Europe or England.

Secretary Bryan tonight called Ambassador Page at London to ask the British foreign office to arrange for the release of Harry Aaron Mathes of St. Louis, who is reported to have been held as a German spy at Sunderland, England.

Red Cross officials announced that there had been a countrywide response to the appeal for funds to finance the relief expedition.

The individual contribution of \$10,000, and another of \$5,000, were reported tonight. Dr. Dumba, Austrian-Hungarian ambassador, now at his summer home in France, expressed thanks to the Red Cross tonight for its campaign of relief.

Secretary Garrison said tonight he had decided it would be necessary to charter two or three ships on this side of the Atlantic to make trips to certain European ports where American refugees have assembled. Some of the American diplomatic representatives abroad, he has learned, will be unable to employ vessels because none that will venture upon the high seas at this time are available at their ports.

An effort was made by Mr. Garrison to have a meeting of the general relief board tonight to consider his plan, but he was unable to bring the other members together.

## PHIL. WILSON RETURNS TO CAPITAL FROM ROME, GA.

Plans to Take Active Part and of  
Work of Helping Americans  
in Europe

WASHINGTON, Aug. 12.—President Wilson returned to Washington at 5 o'clock today from his journey to Rome, Ga., to bury Mrs. Wilson.

The trip from Rome was uneventful. On the advice of Dr. Grayson, his physician, the president spent most of the time on the observation platform of his car.

At a place in Virginia a gang of section hands working on the railroad ran beside the president's car while the train was going slowly and he reached out of the window and shook hands with them.

The president appeared to have been aged by sorrow and the strain he has undergone, and his few words indicated that he was thinking constantly of Mrs. Wilson. The trip to Rome recalled vividly to him the days of his youth.

Tomorrow the president plans to plunge into work and to assume active command again of the work of helping Americans stranded in Europe and of bringing about better business conditions in the United States.

## BRITISH CRUISERS ARE GUARDING TRADE ROUTES

French Also Send Out Warships to  
Drive German Vessels  
Off Atlantic

LONDON, Aug. 12.—The admiralty has sent out cruisers which will ply the Atlantic to protect trade routes. The French government also has sent out warships to search for German cruisers known to be in the Atlantic.

The enemy's ships, says an official of the admiralty, will be hunted continually, and although some time may elapse before they are run down, they will be kept too busy to do much mischief.

A number of fast merchant vessels, fitted and armed at their arsenals, also are patrolling the routes and keeping them clear of German commerce raiders. With every day that passes British control of trade routes, especially those of the Atlantic, becomes stronger. In the North sea where the Germans have scattered mines indiscriminately and where the most formidable operations of the naval war are proceeding, the admiralty can give no reassurance.

## MERCHANT MARINE BILL WILL START NOW IN CONGRESS

Vigorous Opposition to Plan  
to Open Coastwise Trade  
to Foreign Ships

WASHINGTON, Aug. 12.—Opening of the coastwise trade of the United States to foreign-built vessels admitted to American registry during the next two years under the pending Panama act amendment was agreed upon tonight by the house and senate conferees. All such proposals have been bitterly fought by shipping and shipbuilding interests and proclamation of the conference report tomorrow is expected to precipitate vigorous opposition in both houses.

The amendment as it passed the house, designed as an emergency measure to quickly enlarge the American merchant marine and facilitate the movement of exports, while foreign shipping is tied up by the European war, would authorize the president in his discretion to admit to American registry foreign-built ships, not more than five years old. The senate added its amendments to admit such ships to trade between Atlantic and Pacific ports of the United States and on the Gulf and great lakes and from these grew the plan agreed upon tonight.

There has been some question about the right to change the register of a ship owned by a belligerent in time of war, but this was set at rest today by a formal decision by Clegg Johnson, solicitor of the state department.

Mr. Johnson pointed out that the requirements of international law demand that no transfer of a vessel shall be made in a blockaded port or while the ship is on the high seas. In his opinion, however, with this limitation, it is simply necessary that the sale be made in good faith, with no intention to evade the consequences to which an enemy vessel would be exposed and with no understanding expressed or tacit that the vessel is to be retransferred after hostilities.

Government insurance for vessels which take the risk of carrying export trade under the war conditions that now are prevalent in Europe would be provided by a bill introduced in the house today by Representative Lewis of Maryland. It would establish a bureau of marine insurance in the department of commerce. Representative Lewis suggested that no matter what legislative action might be taken to promote ships to carry the American export trade, the insurance rates quoted by the marine insurance companies would prohibit the shipping of ordinary cargoes.

AMERICAN AMBASSADORS IN EUROPEAN WAR ZONE  
Left to right—Ambassador Walter Page in England, Ambassador James Gerard, Germans, and Ambassador Myron H. Herrick, France. American ambassadors abroad find themselves very busy men these days. Not only are they confronted with the problem of getting American travelers back to the United States without endangering their lives but they have also been requested to watch over the embassies of the warring nations in each others' capitals.

INFORMS POLICE THAT  
BANK WILL BE ROBBED

Proposed Burglary Is Tipped Off in  
Letter of Warning Sent to  
Chief Stark

A brief note, unsigned and incomplete  
in the information it gives, but pre-  
dicting that an attempt will be made  
to rob one of the local banks within  
the next few days, reached Chief of  
Police Howard Stark through the mail  
yesterday morning. Stark thinks the  
note was sent as a joke, but says that  
his department will be prepared to  
meet any emergency at any time.

The warning note was addressed  
"Chief of Police, Colorado Springs."  
It was mailed, according to the post-  
mark, shortly before 2:30 o'clock Tues-  
day night. The warning, scrawled on  
a sheet of note paper, read:

"Dear Sir: One of the most brazen  
bank holdups is fixed here within the  
next few days.  
"Enough said."

IOWA WOMAN  
TELLS OTHERS

How Lydia E. Pinkham's Ve-  
getable Compound Cured  
Her Suffering Through  
Change of Life.

Cedar Rapids, Iowa.—"At the Change  
of Life the doctor said I could have to  
give up my work and  
take my bed for  
some time as there  
was no help for me  
but to lie still. I  
took Lydia E. Pink-  
ham's Vegetable  
Compound and kept  
up my work and  
now I am over the  
Change and that is  
all I took. It was  
better for me than  
all the doctor's medicines I tried. Many  
people have no faith in patent medicines  
but I know this is good."—Mrs. E. J.  
RICKS, 364 8th Avenue, West, Cedar  
Rapids, Iowa.

Such warning symptoms as sense of  
suffocation, hot flashes, headaches, back-  
aches, dizziness, impending evil, timidity,  
sounds in the ears, palpitation of the  
heart, sparks before the eyes, irregu-  
larities, constipation, variable appetite,  
weakness and inquietude, and distresses,  
are promptly headed by intelligent wo-  
men who are applying the tried and  
true Lydia E. Pinkham's Vegetable Com-  
pound.

Lydia E. Pinkham's Vegetable Com-  
pound invigorates and strengthens the  
weakened and builds up the im-  
paired nervous system. It is a safe and  
many women safely through this crisis.

If there are any complications  
you don't understand, write Lydia  
E. Pinkham Medicine Co. (Co. 51-  
117) Lynn, Mass.

## COLORADO SPRINGS AGAIN TO THE FRONT AS HEALTHIEST CITY; DEATH RATE IS 7.53

Yearly Report of Health Office Shows That  
Springs Ranks Second to None

A record for general healthfulness  
which few cities can duplicate, made  
by Colorado Springs during the year  
1913, was shown to the city council  
yesterday morning in fact and figures  
given by Health Officer C. R. Gillett  
in his report for that year. Gillett  
points out that resident deaths during  
the year numbered 235, making the  
actual death rate for the year only  
7.53, while births numbered 444,  
that the records show there is little  
liability to infection from tuberculosis  
in Colorado Springs, and that there  
made practically two days out of every  
three during the year showed that the  
city water supply was exceptionally  
pure.

Some of the most interesting parts  
of the report are as follows:

### Extracts From Report.

Our record on contagious diseases,  
while not up to that of 1912 in the  
number reported, was a gain in that  
we lost by death but three cases of  
diphtheria and none from other con-  
tagion. There has been no change  
made in the manner of handling these  
diseases unless it be that we are know-  
ing more and more strict in our quar-  
antine regulations. We are taking  
more throat cultures and find by doing  
so that diphtheria exists in its mildest  
form and in a variety much more fre-  
quently than was formerly supposed.  
More sore throats are cases of  
diphtheria than we formerly suspected  
or knew to be such. These are the  
probable sources of our epidemic as  
well as our endemic cases, and could  
they all be detected we could doubtless  
be able to eradicate the disease from  
our community.

### Tuberculosis.

Much has been said of late about the  
liability to infection from tuberculosis  
in our city, where so many come to be  
cured of this disease by our health-  
giving climate. Whatever theories  
may be advanced to show there is in-  
creased danger here are shown to be  
erroneous by a glance at the vital  
statistics. In 1912 we lost but two  
cases by death, which the records say  
developed pulmonary tuberculosis in

## ST. JOSEPH TOURISTS TO REACH SPRINGS TOMORROW

Car Experienced Dust Storm and Hot-  
test Day of Year, but Make Good  
Headway at Goodland, Kan.

GOODLAND, Kan., Aug. 12.—Run-  
ning for a distance straight into the  
teeth of a western Kansas dust storm  
and then turning to the west for a  
steeper climb through the dark with a rain-  
storm at their heels, the St. Joseph  
Auto club tourists averted their eyes  
from a 40-mile clip tonight, reaching  
Goodland at 8:15 o'clock.  
The club today was from Philadelphia,  
a distance of 168 miles. The weather  
was the hottest yet experienced and  
the trip through the most dust. The  
tourists were 14 miles out of Nor-  
ton by 10 cars, representing the Auto  
and Commerce clubs and escorted into  
town where they were hospitably en-  
tertained with a dinner and then con-  
veyed out of town. The party expects  
to make the remaining 188 miles into  
Colorado Springs by tomorrow night.

## Wells-Fargo Advises Employees on How to Care for Packages

In the interest of the public and the  
safeguarding of their property, A. C.  
Christensen, vice-president of the Wells-  
Fargo Express company, with head-  
quarters in San Francisco, has caused  
a notice of "The Fargo Way" to be  
sent to every employee in the company  
from the coast to New York. This  
notice has been issued with the inten-  
tion of making the employees of the  
company handle the property of other  
people as carefully as if it were their  
own, and of guarding carefully the  
packages entrusted to them. W. W.  
Cawen, local agent, said yesterday that  
all the agents through the country  
were cooperating to see that this car-  
ried out. The company realizes that the  
public must be treated right. The new-  
men are given a copy of the notice,  
which is having a great effect accord-  
ing to Mr. Cawen. The notice follows:  
To handle all shipments carefully and  
not drop, slide or throw them; and  
comply with requests on shipments to  
"handle with care," "keep this side up,"  
"keep dry," etc., and generally to pro-  
tect fragile shipments.  
To keep perishable goods and food  
products from freezing or overheating.  
To load or pile crates and baskets of  
fruit, vegetables, eggs, etc., carefully  
and right side up.  
To load or pile light shipments care-  
fully and not under heavy ones; and where  
they will not fall into crates or other  
shipments.  
To keep merchandise, live stock, raw  
furs, perishables, food shipments and  
other shipments of different character  
separate from each other to prevent  
one class of matter injuring another.  
To prevent any one in or out of the  
service from stealing or pilfering any  
shipment.  
To load cars, wagons and trucks care-  
fully so that shipments will ride safely.  
To follow instructions to feed, water  
and generally protect live animals, fish,  
birds, live poultry, etc., entrusted to  
our care, and so place them as to pre-  
vent their injuring each other or dam-  
aging other shipments.  
To see that shipments of oysters,  
fish, fruit in pony refrigerators, and  
other shipments requiring ice, are care-  
fully examined and reloaded when neces-  
sary.  
To see that all bad order shipments  
are immediately repaired to prevent  
damage or loss of contents.  
To give the property entrusted to  
me the same care as I would if it were  
my own.

Colorado Springs. One of these came  
to Colorado Springs over 20 years ago  
for his health, which is ample evidence  
that his disease was contracted else-  
where. Three cases of tuberculosis  
meningitis died here in 1913, which the  
records say were developed in Colorado  
Springs. In one of these there was  
doubt as to where it was contracted.  
In 1913 the death records show one case  
of pulmonary and none of meningitis  
tuberculosis contracted in Colorado  
Springs. Of these six cases, which died  
here in the first two years, but three  
spent their infancy in Colorado  
Springs. It occurs to me that if this  
disease was being contracted in Colo-  
rado Springs it should make its ap-  
pearance in the death records, which  
it does not do. The city is now over  
10 years old, and we have a large  
number of young people who were born  
or came here in early infancy. In the  
last two years we have lost through  
pulmonary and meningitis tuberculosis  
three individuals who spent their  
infancy here. Can you show me an-  
other city of equal size with so good  
a record?

### WATER

City water is tested both quanti-  
tatively and qualitatively for bacteria  
about 20 days out of each month. The  
water during 1913 has been exception-  
ally pure, the counts being low and no  
evidence of intestinal flora being  
found. A sanitary chemical examina-  
tion is made once each month. These  
combined tests show that he have in  
Colorado Springs a water supply that  
is as near as possible to the ideal.

During the year a total of 48 con-  
tagious cases were reported. Of these,  
31 were scarlet fever, 14 diphtheria and  
six amputations. The number of com-  
municable cases was 289. There were  
182 of tuberculosis—contagious, 182  
where, 12 of measles and 24 of chicken-  
pox. Of the typhoid fever cases, 13  
were from outside infection and 18  
from local. On December 31, there  
were only three houses under quaran-  
tine. The total number of quarantines  
established during the year was 28.  
Deaths from contagious and communi-  
cable diseases numbered eight.

The total number of deaths for the  
year was 422. The largest number of  
deaths in any month was 53 in August.  
The principal causes of death:  
Tuberculosis of the lungs, 138.  
Cancer and other malignant tumors  
of stomach and liver, 20.  
Cerebral hemorrhage, 19.  
Organic disease of heart, 31.  
Pneumonia, 37.  
Bright's disease, 30.  
Epilepsy, 9.  
Old age, 8.  
Homicide, 1.

### Annual Death Rate.

Total deaths (all causes except  
stillborn) 422  
Deaths (nonresident exclusive of  
tuberculosis) 102  
Deaths (nonresident tuberculosis) 95  
Deaths (resident tuberculosis, de-  
veloped elsewhere) 54  
Deaths (resident tuberculosis, de-  
veloped elsewhere) 15.40  
Deaths (resident tuberculosis, de-  
veloped elsewhere) 5.23  
Actual resident death rate (ex-  
cluding tuberculosis developed  
elsewhere) 7.53  
Out of a total of 485 deaths there  
were 222 bodies shipped out of the city.  
Of the deaths, 462 were whites, 27  
were negroes, three were Mexicans and  
one was an Indian. There were 250  
males and 175 females. Of the dead,  
199 were single and 197 were married.  
More people (93) between the ages  
of 20 and 29 died than at any other  
age. There were 79 deaths at ages be-  
tween 30 and 39. Deaths of children  
under 1 year numbered 46. From 1 to  
4 years it was eight.  
Of the people who died from tuber-  
culosis, 16 came from Illinois, 17 from  
Missouri and 12 from Kansas. The re-  
maining came from 25 other states and  
11 foreign countries.  
Of the dead, 31 were farmers, 28  
were laborers, 20 merchants, 11 car-  
penters and 10 clerks.  
Births for the year numbered 444,  
of which 428 were whites. The number  
males was 251 and the number of fe-  
males was 193. There were six pairs  
of twins.

## THINKS OIL FIELD WILL BECOME LARGE PRODUCER

O. H. Shoup Returns From Grass  
Creek, Where He Inspected Prop-  
erty; Four Wells Under Way

The extent of the new oil field along  
Grass creek in Wyoming, part of which  
is owned by the Midwest Refining com-  
pany, will not be known until the field  
is developed further, according to  
Oliver H. Shoup, president of the com-  
pany, who has returned from an in-  
spection trip to the district. Shoup was  
accompanied by J. L. Warren and H.  
M. Blackmer.  
"Four other wells are being drilled  
and these will determine the extent  
of the field," Mr. Shoup said. "The  
strike was made at a depth of 79 feet  
and the oil sand was just touched. We  
believe that the real oil sand lies some-  
what deeper."  
Mr. Shoup is enthusiastic over the  
new field, however, and believes it  
will be a large producer.

## KEEP YOUR LIVER ACTIVE DURING THE SUMMER MONTHS—FOLEY CATHARTIC TABLETS FOR SLUGGISH LIVER AND CONSTIPATION

It does not all how quickly Foley  
Cathartic Tablets loosen your liver and  
overcome constipation. Nay Oldham,  
Wimberley, Texas, says:—"Foley Cath-  
artic Tablets are the best laxative I  
ever used. They take the place of  
cathartics. Wholesome, soothing and  
cleansing. No griping. A comfort to  
stool persons, as they relieve that  
stuffed, bloated feeling." Robinson Drug  
Co., Adv.

ROYAL CO. OF OK. \$5.00  
Rio Grande, August 18th. Adv.

## COST OF EQUIPPING FARM OF 320 ACRES IN COLORADO IS ESTIMATED BY EXPERT

H. M. Cottrell, Agricultural Commissioner,  
Says Settler Should Invest About \$3,300

Prof. H. M. Cottrell, agricultural  
commissioner for the Rock Island rail-  
road and an expert on farming and  
dairying in eastern Colorado, has pre-  
pared some useful statistics for the  
guidance of prospective settlers on the  
Rock Island stage land next month.  
According to Mr. Cottrell's figures, the  
total outfit for a farm of 320 acres,  
including equipment, buildings and  
stock, would be \$3,300. His estimate  
follows:

**Building and Fencing.**  
Four-room house ..... \$600  
Shed for 10 horses ..... 100  
Shed for 10 cows ..... 100  
Well ..... 150  
Windmill and pump ..... 110  
Water tank (15 barrels) ..... 15  
Two pit silos ..... 40  
Barbed wire (500 ft.) ..... 245  
Hog fence (half mile) ..... 65  
Total ..... \$1,425

**Live Stock.**  
Ten cows ..... \$750  
One hundred hens ..... 100  
Five sows ..... 75  
Three heavy horses and harness ..... 500  
Total ..... \$1,425

**Implements and Tools.**  
Plow (12-inch) ..... \$12  
Lister and drill ..... 25  
Lister sled cultivator ..... 15  
Wagon ..... 35  
Dish harrow ..... 35  
Spike tooth harrow ..... 14  
Two-horse cultivator ..... 20  
One-horse cultivator (14-tooth) ..... 5  
Mowing machine ..... 55  
Hay rake ..... 35  
Grain drill, (10 disc) ..... 100  
Four 40-quart milk cans ..... 14  
Hend and separator ..... 50  
Tools, milk pails, forks, etc. ..... 25  
Total ..... \$749

**Grand total.**  
This equipment fences the farm to  
the best advantage, equips it with  
ample buildings and with horses and  
cows sufficient to do good work and  
secure a good weekly cash income. As  
fast as the income from the farm jus-  
tifies it, the herd should be increased  
to 20 choice cows and to five heavy

## WAR WILL SEND TOURISTS TO SPRINGS NEXT YEAR

Globe Trotters Who Haunt Europe  
Will Come to Region; Fair Will Be  
Held; Railroad Men Confer

A combination of the European war  
and the Panama-Pacific exposition  
will make next year a record breaker  
for Colorado Springs as a tourist re-  
sort, according to a number of prom-  
inent railroad men from all over the  
country who are meeting at the Anglers  
club here today, discussing transportation  
questions. The large number of  
travelers to Europe will seek their  
travel and amusement elsewhere and  
Colorado Springs will get a majority  
of them, in the opinion of J. W. Daly  
of New York city, passenger traffic  
manager for the New York Central lines.

"The combination of these two cir-  
cumstances, the war and the fair, will  
make Colorado Springs mighty popu-  
lar," Daly said. "The exposition will  
not be postponed and the managers are  
doing a lot to put this city on the  
travel map for stopovers en route.  
I believe that you will have the great-  
est travel in here next year that the  
western country has ever known."

Other railroad men who are here for  
the conference are J. M. Allen, pas-  
senger traffic manager of the Rock  
Island at Chicago, J. A. Stewart, gen-  
eral passenger agent of the Rock Is-  
land at Topeka, W. R. Jerome, general  
western passenger agent for the New  
York Central at Chicago, George W.  
Martin of Denver, general passenger  
agent of the Rock Island, Irwin Teas  
of Denver, agent for the New York  
Central.

### CITROLAX!

CITROLAX!  
CITROLAX!  
It's a laxative of course—name tells  
you that. And the nicest hot weather  
drink you ever tasted. Flushes throat,  
coughs and pleasantly, too. F. C.  
Crisler, Syracuse, N. Y., says:—"Have  
used Citrolax for 15 years, but this  
Citrolax has got everything else beat."  
"You will agree with him. Specially  
nice for children and delicate  
persons. Sweetens a sour, bilious  
stomach very quickly and stops head-  
ache." Robinson Drug Co., Adv.

## THE MOST WONDERFUL SIGHT SEEING TRIP IN AMERICA

Is over the famous "Cripple Creek  
Short Line." Round trip, \$2.50. Adv.

Don't forget the Delta Co.'s big fire  
sale where you save three-fourths.

## I here

is so much more genuine  
satisfaction in the use of  
fancy quality tea that the  
slight difference in cost is  
of little consideration.

### DERNGOOD TEAS

are of the finest quality  
pickings from the early  
shoots of the tea bush.  
They will satisfy the most  
discriminating palate.

pound.

## DERN'S

Makers of Fine Candies  
25 N. TEJON PHONE 605

work horses. If the horses are mares,  
the colts will add to the income. The  
colts can be increased to 400 head  
easily by selecting the best of the  
early hatched pullets for two or three  
years and the number of brood sows  
can be increased to any desired num-  
ber by the saving each year of the  
best sow pigs.

### When Capital Is Insufficient.

The buildings, fencing, live stock,  
implements and tools recommended for  
the most advantageous equipment of a  
320-acre dry land farm requiring an in-  
vestment of \$3,300, besides the first  
payment on the land. Many men who  
hope to build homes on dry land farms  
do not have so much money.  
By using adobe brick, which are  
home made, the cost of the house can  
be reduced one-third and that of the  
stable shed and hen house one-half.  
The cost of the buildings will be re-  
duced from \$800 to \$500. The new set-  
tler using in this case his labor and  
time instead of money can build for a  
cash outfit of \$100. The barbed wire  
fence can be limited to two miles that  
is necessary to fence around one 160-  
acre field, which will cost \$110. The  
hog fence requirements may be an in-  
vestment of \$345, which will make the cost \$335.  
If badly cramped for money the new set-  
tler can start with five cows costing  
\$750. He can start with \$50 worth of  
hens and one brood sow costing \$15.  
He can start with \$25 worth of tools  
for horses and a horse-drawn tool for  
the great assets in successful dry land  
farming. He can rent a grain drill  
and save \$100. With these cuts a fair  
outfit can be secured for \$2,340. Many  
farmers have the cash and tools and  
stock in which case they could start  
with \$1,000 cash in addition to the  
first payment on the land.

Many men who are now comfortably  
settled on dry land have started on dry  
land with much less but they had  
hardships that they would not care to  
repeat. One of the most successful dry  
land farmers in Colorado had a three-  
room shack built on his farm and took  
his wife and three babies to it with  
the same amount of money. He worked  
for neighbors, borrowed implements for  
a year, and finally got on his feet and  
made a good income every year. He is the kind of man that will  
succeed anywhere.

### A Hard Struggle.

Another man had the money to put  
up a small house and a shed. He had  
two horses and a cow and brought  
with him a fair stock of farm im-  
plements. He started on his own and  
brought followed through. He decided  
to leave the country and offered his  
goods for sale. A banker heard of it  
and sent for the man. The banker  
told him to stay. The dry land farm-  
er was an unusual good and one-  
man farm. The banker said that he would loan the  
farmer money enough to buy another  
cow, taking the two for security and  
to receive one-half the cream money  
until the note was paid. The farmer  
reluctantly consented to try the plan  
as there was a large acreage of wild  
grass pasture near his place. He soon  
paid for the second cow. The banker  
loaned him money on the same terms  
to buy two more. Soon the farmer  
owned four cows and the banker loaned  
him the money to buy four more. He  
now owns a good herd and is an en-  
thusiast on the advantages of dry land  
farming but his first struggle were  
harder than most men could endure.  
A good dairy herd owned from the  
start would have prevented this hard-  
ship and given him a weekly cash in-  
come.

A mistake that has led to failure  
with many dry land farmers is paying  
too much for their land. Land is  
worth that amount only upon which  
the net returns equal a fair rate of in-  
terest. For example, in sections of the  
southwest it is considered that 640  
acres in native grass will furnish the  
feed for 12 months for 40 cattle. What  
is the land worth? Suppose that 15  
cents a month per head is charged for  
pasture or \$3 per head per year. A 640-  
acre tract brings an annual rental of  
\$360. If money loaned on land brings  
a per cent, then \$360 is a fair return on  
\$36,000, and this is the worth of 640 acres.  
A little less than \$7 an acre.

Yet thousands of dry land farmers  
have paid \$20 to \$30 an acre for raw  
land of exactly this kind and have lost  
all they had because there was no way  
in which to meet the interest and pay-  
ments due on this high valuation.  
Men who ask high prices for such  
land base their prices on what it will  
return them when fenced and im-  
proved with buildings, water works,  
stock and dairy cattle and under a  
good state of cultivation. The buyer  
has to make all these improvements and  
he should get the benefit of the in-  
crease in the value of the land  
which his expenditures make and not  
the man who sold the raw land.  
There is very little raw dry farming  
land in the southwest that is worth as  
a producing proposition more than \$10  
an acre and most of it is not worth  
more than \$5 an acre.

### Societies and Clubs

Columbine homestead will entertain  
all visiting Yeomen at their hall on  
Pikes Peak avenue at 4 o'clock this  
evening. All Yeomen are urged to be  
present.

Memo L. Tanner tent, Daughters of  
Veterans, will hold their regular busi-  
ness meeting in G. A. R. hall tomorrow  
afternoon. Business of importance will  
be taken up.

There will be a meeting of the men  
of the Second Presbyterian church at  
the home of Henry Fuerhardt, 1427  
Washington avenue, this evening at  
7:30 o'clock.

The ladies of Mrs. Eldridge's district  
of the First Presbyterian church will  
meet at her home, 230 East Cucharas  
street, at 8 o'clock this afternoon.

The Cantonettes will give a card  
party at I. O. O. F. temple at 2:30  
o'clock this afternoon.

### YOU CAN

Go to Cripple Creek in your auto, but  
that is not making the famous "Short  
Line" trip, as the wagon road is many  
miles away from the wonderful rail-  
road.

### SOMETHING DOING

Every minute at the W. O. W. picnic  
at Clyde Sunday, August 18, besides  
the ride over the wonderful Short Line  
road.

Don't forget the Delta Co.'s big fire  
sale where you save three-fourths.

# Sociability Run to Salt Lake From Springs Will Be Big Event

## Cities Enroute Enthusiastic Over Plan, Offer Trophies to Autoists

Scenes along the route of the sociability run to Salt Lake City. Upper—On the last lap of the journey in the Utah capital. Center—One of the picturesque spots in the Pikes above Manitou. Lower—The town of Meeker, Colo., showing the Colorado Springs route and party on its trip of marking the route.

Final preparations for the sociability run from Colorado Springs to Salt Lake City over the Pikes Peak Ocean-to-Ocean highway were completed last night at a meeting of those interested held at the Chamber of Commerce. Several entries in addition to those already made were handed in and the tour is assuming large proportions. An official invitation to accompany the tour was issued by Leonard E. Curtis, president of the Automobile Club of Colorado, Springs, to State Highway Commissioner T. G. Ebbert, World War representative of the Automobile Blue Book of America, on his way from Chicago to join the tour for the purpose of looking the road for the 1915 edition of the Blue Book.

Representatives from the control towns along the route have advised Secretary Henderson that extensive preparations have been made for the sociability run. The tourists enroute from Salt Lake, official cars from many of these towns will join the tourists and escort them from place to place. Reception, dinners, troop breakfasts and many other entertainments will be offered to the motorists and interest in the run is increasing daily in Utah.

One of the features of the run will be the daily trophies offered by the towns enroute. Louisville will award a cup in the driver making the best record on the first day's run. Provo has likewise offered a trophy for the run from Vernal and many other cities are planning to do the same. By this system of daily trophies an opportunity will be offered for drivers who intend to accompany the tour for only a short distance to win a prize and it is especially prized by the association that every tourist in the Pikes Peak region who is planning to take a short trip should join the tour leaving Colorado Springs Monday morning. In this way he will help make the trip a success and also have the chance to win a prize. Salt Lake City will award a handsome cup to the driver making the best record and besides that there is the official trophy of the Chamber of Commerce.

The official car from St. Joseph, Mo., is making steady progress and reached Goodland, Kan., last night according to word received here yesterday. A telegram from G. B. Newkirk, representative of the Chamber of Commerce on the Colorado Springs route car reports that the auto reached Burlington, Colo., in good shape last night and will meet the St. Joseph delegation at this morning on the state line to escort them into Colorado Springs. More than 30 cars on their way to Colorado Springs have been

sighted by the pilot car over the Pikes Peak Ocean-to-Ocean highway.

**Utah Cars Start Today.**

Word from Secretary W. C. Stark of the Salt Lake City Commercial club over the long distance telephone to the effect that the Utah cars will leave the Mormon capital this morning enroute for Colorado Springs, was received by Secretary Henderson yesterday. The first of the delegations from Salt Lake arrived here yesterday, Dr. J. O. Keyes, and family in an oceanic touring car. The automobile left last Thursday and made the trip over the Lincoln highway, a distance of 500 miles. Dr. Fred Stauffer is due to arrive in Colorado Springs tomorrow with another delegation from Salt Lake. He will make the trip over the Pikes Peak highway. By this method a comparison of the two routes will be made, and from the report of Mr. Keyes the Lincoln highway is not in the best of condition.

The following entries in addition to those already made, were handed in last night. R. L. Russell of Colorado, Tex.; F. Aldrich of Colorado Springs and representative of the Chamber of Commerce, C. Hopkins of Saginaw, Mich. The tourists will leave Colorado Springs Monday morning at 10 o'clock from the Chamber of Commerce. Each car will carry a Pikes Peak Ocean-to-Ocean Highway banner which is being especially prepared for the tour, and a pennant bearing their home town and state. A trouble car will accompany the tour in case of accident.

W. T. Greene, Hopkinton, N. H., writes the following letter, which will interest every one who has kidney trouble. "For over a year, Mrs. Greene had been afflicted with a very stubborn kidney trouble. An operation was advised. This I would not consent to. Foley Kidney Pills done more to complete her recovery than any medicine she has taken and I feel it my duty to recommend Foley Kidney Pills to all who need kidney medicine." They are tonic in action, quick to give good results. Robinson Drug Co. Adv.

# DORCHESTER PARK OPENS; SPECIAL EVENTS THIS WEEK

Doll Contest This Afternoon at Prospect Park; Button System Proving Big Success With Children

The play ground children of Dorchester park have taken up their interrupted activities with increased vigor, and the games and races that were postponed on account of the flood 10 days ago are in full swing again. The playground has been restored to normal condition and teams are being formed to compete in the interplay ground for the championship of the city parks. A Dorchester park team will meet the Boulder playground delegation at Boulder this afternoon. Playground activities in Dorchester park will be livelier than ever this week and next, and the following program has been arranged for Friday and Saturday the following week:

Friday afternoon—Special folk games and circle games.

Saturday afternoon—The ball teams and relay teams of Prospect lake will be entertained by Dorchester park.

Monday afternoon—Tennis tournament.

Tuesday afternoon—Dorchester will send a ball team to Monument Valley park.

Wednesday—Track meet.

Friday, August 21—Stunt day, with usual games and races for boys and girls.

Dolls of all shapes and sizes will predominate at the Prospect lake playground this afternoon, for there will be a big doll show with hundreds of prizes for the different varieties of dolls. Buttons will contribute largely to the success of the playground system. In the opinion of Supervisor Arthur Murray, Jr., who they are to be given as a reward of merit at all the parks. Each of the supervisors will have the distribution of 34 buttons. The 10 children doing their best for the general welfare and success of their playground will be awarded buttons. Loyalty, enthusiasm and discipline will be taken in consideration, also all-around help.

# TEXANS TO HOLD PICNIC AT MANITOU ON SATURDAY

Lone Star State Citizens Expect Record Crowd at Event; Hold at Soda Springs

Former Texans who are living in the Pikes Peak region and people from Texas who are visiting here, will hold the first of the state day gatherings to be given in Manitou this year Saturday afternoon, beginning at 2 o'clock in the Soda Springs park. The gathering, those who are in charge of it say, will be the biggest and most enthusiastic that has been held since the state picnics were inaugurated at Manitou. A program of speeches, music and recitations has been arranged, and the Midland band concert probably will be given in the afternoon, in honor of the Texans. Instead of in the evening.

The program will include an address of welcome for Manitou, delivered by Mayor Maxon W. Kirby, as the representative of Mayor Lennon, a response to this address by ex-Lieutenant Governor George Gester of Chickasaw, Tex., addressed by Judge Schluter of Jefferson, Senator Staples of Smithville, H. H. Storey of San Antonio, Judge Tompkins of Dallas and Capt. "Bill" McDonald of Dallas, and a dedication by Mrs. H. D. Organ of Bastrop, Tex.

Judge L. S. Schluter of Jefferson, Tex., has been made president of the Texas society and Miss Ida Richardson secretary-treasurer. The committee on arrangements is composed of H. L. Smith of Mart, Tex., former president of the Texas society, who has visited in the Pikes Peak region regularly for the last six years; Senator L. L. Hicks of Smithville, Tex., and Miss Willie Higgins of Lubbock, Tex.

# ADVANCE IN FOOD PRICES MUST BEAR INVESTIGATION

National, State and City Officers in Chicago Will Go to Bottom of Question

CHICAGO, Aug. 12—An advance in food prices with the European war as a pretext which may be put forward in this city or the district tributary to Chicago must justify itself in the face of an investigation by national, state and city authorities, it was declared today.

Representatives of the Chicago Master Butchers Association were busy today preparing for a meeting tomorrow at which recent advances of 3 to 5 cents in meat prices will be put under the searchlight.

James H. Wilkerson, United States district attorney, will return to Chicago Friday for a brief vacation. He declared today at Pentwater, Mich., that if evidence of unjustified price raising were brought to him that he would act immediately before the federal grand jury.

"Where foodstuffs are handled in interstate commerce the matter comes under the federal law," he said. "My office will go to the bottom of this question."

Similar inquiries were set on foot today by the state's attorney's office and the municipal markets commission of the city council.

**Diarrhoea Quickly Cured.**

"My attention was first called to Chamberlain's Colic, Cholera and Diarrhoea Remedy as much as twelve years ago. At that time I was seriously ill with bilious complaint. One dose of this remedy checked the trouble," writes Mrs. C. W. Florence, Rockfield, Ind. For sale by all dealers. Adv.

# GERMANY ASKS PERMISSION TO OPERATE ITS WIRELESS

Post Department Believes Apparent Discrimination Is Justified by Hague Convention

**WASHINGTON, Aug. 12.**—Hans von Haimhausen, chargé of the German embassy conferred with Secretary Bryan today on wireless and cable communication between America and Europe. The charge had previously requested that the state department permit code messages to be exchanged directly between the United States and Germany which now are barred by the military censors in England, through which country all cable messages must pass to reach Germany.

The charge also was desirous that the German-owned wireless stations at Sayville, L. I., and Tuckerston, N. J., be permitted to work with Germany free from censorship, thereby placing Germany on equality with England and France, which are using their cables without restrictions for transatlantic correspondence.

A disposition was shown at the state department to justify the apparent discrimination against the wireless by an article in The Hague convention which provides that such methods of communication may be barred while the stations were erected for purely military purposes, on neutral territory and transact no commercial business. The German contention is that the prohibition does not apply for the reason that the stations in question have been doing commercial business.

Secretary Bryan promised Charge Haimhausen that he would take the subject up with President Wilson as soon as possible and the charge returned to the summer embassy at Newport to await his answer.

# MONEY STRENGTH OF NATIONS

**Resources of Triple Alliance Exceed Those of Triple Alliance**

While the numerical strength of the armies of the great nations of Europe that may be drawn into war will be an important factor, just as important an element will be the financial strength of those countries with which to maintain such an expensive and costly war as may occur.

The resources of the countries composing the triple entente exceed those of the triple alliance, although the national debts of Great Britain, France and Russia are far beyond the aggregate indebtedness of those nations making up the triple alliance.

While the revenues of the United Kingdom, Russia and France are greater than those of Austria, Germany and Italy, it is interesting to note that the wealth of the United States is much greater than that of all the nations in the triple alliance combined, besides exceeding the resources of the Franco-Russian alliance. Likewise, it is greater than that of the aggregate wealth of Russia and the United Kingdom.

Germany has a revenue of \$478,654,000, expenditures \$578,666,000, a debt of \$1,174,418,000 and total wealth of 604 billion dollars. Austria, \$336,899,000 revenue, \$436,899,000 expenditure, \$1,436,899,000 debt and 40 billion dollars total wealth. France, \$514,904,960 revenue, \$514,660,000 expenditure, \$5,233,975,000 debt and 46 billion dollars total wealth, and Russia, \$1,574,038,000 revenue, \$1,474,038,000 expenditure, \$4,563,488,000 debt and 40 billion dollars total wealth.

revenue, \$436,899,000 expenditure, \$1,436,899,000 debt, 25 billion dollars total wealth; Italy, \$512,800,000 revenue, \$505,841,000 expenditure, \$7,706,000,000 debt and 20 billion dollars total wealth, all comprising the triple alliance.

In the triple entente the United Kingdom has \$515,608,000 revenue, \$517,913,000 expenditure, \$3,486,818 debt and 40 billion dollars total wealth; France, \$514,904,960 revenue, \$514,660,000 expenditure, \$5,233,975,000 debt and 46 billion dollar total wealth, and Russia, \$1,574,038,000 revenue, \$1,474,038,000 expenditure, \$4,563,488,000 debt and 40 billion dollars total wealth.

**GERMAN UHLAN IS A LANCER CAVALRYMAN**

Mention of the work of the German Uhlans in the attack on Liege proved a confusing term to the average American. Many knew they were cavalrymen, but there a general knowledge stopped.

"Uhlans" distinguishes a certain type of cavalryman in the armies of Germany, Russia and Austria. He is a lancer. The Uhlans are armed with lance, carbine and pistol. He is well mounted and his equipment is especially designed for the purpose for which he is employed—ready to fight or run, ride down outposts or scouting parties of the enemy, harass his flanks and screen the movements of his own main body. Uhlans in the German army wear the czapka, the peculiar flat topped head-dress which is the distinguishing mark in the uniform of the lancer regiments of European countries.

The patrol of Uhlans who tried to railroad into Liege, according to reports from Brussels, was acting true to the Uhlans reputation for daring work. There are 26 regiments of Uhlans in the German army, with a total strength on a peace footing of approximately 28,000.

**DRIVERS GET BADGES; MANY NEW LICENSES ISSUED**

The state badges which the new city ordinance requires all tourist drivers to wear reached Colorado Springs Tuesday night, and City Clerk Chapman began giving them out to the drivers yesterday. The city purchased, in all, 150 of the badges. Under the ordinance, all hack, automobile and livery drivers for the tourist business must obtain licenses, and all must wear the badges.

The issuing of the licenses to the drivers has been in progress for several days. On the form of application which the drivers use, they are required to say to what extent they use intoxicating liquors, if at all, and whether or not they will agree not to use it when employed in driving. Tourist drivers, Chapman said yesterday, have refused at first to make this pledge, but later have signed it and have obtained their licenses.

## PLAY FOR INTERNATIONAL TENNIS HONORS STARTS TODAY; WILLIAMS WILL MEET WILDING IN SINGLES

American Net Stars Will Be Forced to Limit to Retain Cup; Australasians Speedy and Are Feared by Experts

NEW YORK, Aug. 12.—Robert D. Wrenn made the announcement today that R. Norris Williams II would have the honor for America of opening the Davis cup matches tomorrow afternoon at 2 o'clock against Anthony F. Wilding of Australasia as the challenger. The second match in the singles on the courts of the West Side Tennis club at Forest Hills, N. Y., will bring Maurice E. McLoughlin, the American champion, against Norman E. Brookes, captain of the challengers.

In the closing singles matches on Saturday, Brookes will meet Williams, and Wilding will finish the series of five matches with McLoughlin. Wrenn declined to say whether Karl H. Behr or Thomas C. Bundy would hold the court with McLoughlin on the American doubles team in the matches Friday.

On the eve of the Davis cup matches there is dissension in the American camp. Karl H. Behr has mustered a host of supporters, while Thomas C. Bundy has only a few Californians. But among Bundy's advocates is Maurice E. McLoughlin, who is sure to be the wheel horse of the doubles pair, irrespective of whom the committee may select as second man.

A majority of the critics, experts and professionals agree that since his arrival in this section of the country, Bundy has been playing sluggishly and with little or no show of form. While they admit that Behr is somewhat erratic, still he has sufficient of the dazzling unexpectedness of McLoughlin to keep the Australasians guessing. The words "freight car" and "elephantine" have recently been applied to the sort of tennis that Bundy has played, while Behr has fought to the limit and displayed the topmost flights of energy.

Not a member of the committee—Robert D. Wrenn, George T. Ades or Julian S. Myrick will officially select a yard as to the doubles selections. The fact has leaked out, however, that the committee wants Behr, while McLoughlin stands out against the wishes of those in authority and has the committee in an embarrassing position. As the matches stand the committee frankly confesses that the doubles is a most important contest, as it is likely to be the match that will turn the

## 1914 FOOTBALL RULES SHOW I. W. CHANG'S

Forward Pass Limitations Are  
Lutered; Nobody on  
Side Lines

With the gradual gathering of the football clubs, a publication of the various changes in the rules for 1914 will be of general interest to the collegians. While many of these were indicated during the meeting of the football rules committee in the winter, there were others which escaped general attention in the widespread publicity which the Federal league was gathering at the time.

The principal alterations as connoted in the official Spalding guide, which was recently placed on sale, are as follows:

The last privilege of the head coach has been removed and in 1914 no coach will be allowed to walk up and down the sidelines.

Those who witnessed one of the principal games of 1913 will remember the safety made by a player caused by his failure to diagnose the difference between an ordinary punt in the field of play and a freak kick hitting the goal posts. In order to have no complications of this kind arise again, the rules have been altered so that a free kick hitting the goal post and bouncing back into the field of play, becomes automatically a touchback, just as though it were an ordinary punt.

The field judges to be brought back to act as an assistant to the referee and line men in the big games. This was voted by the rules committee, although on account of the expense in small games the addition of this official is left optional.

The words "running into" fullback after a kick have been changed to "roughing the kicker," etc., in order that a man coming through and trying to block the kick will not necessarily incur a penalty if he happens to run against the kicker.

A rule is also added putting a penalty on a man who roughs a man who has just made a forward pass.

A forward pass that goes out of bounds either on a fly direct or after being touched by an eligible player of either side, goes to the opponent.

It has also been determined that the receiver of a forward pass in the end zone, regardless of the position of his hands and the ball, must have both of his feet within the end line or within the sidelines to make the catch legal.

In the cutting out of the knockout after a touchback or a safety the ball must always be scrimmage on the 50-yard line.

Another important alteration is designed to prevent a man taking advantage of the rules when he finds himself attempting to make a forward pass and forced back. The trick was cleverly worked last year by throwing the ball to the ground and thus by the loss of a down, having the ball go back to the place where it was scrimmage. This is now prevented by a 10-yard penalty measured from where the ball was put in play, against any man thus intentionally grounding a forward pass.

In the case of a player out of bounds when the ball was put in play, the play is not made over again, but a five-yard penalty is exacted.

"Hiding on the sidelines" is classed under unsportsmanlike conduct. Teams will no longer be allowed to encroach upon the neutral zone in making shift plays. As soon as either team is lined up on the offensive, any shift must be made without a player passing in this neutral zone under a penalty of five yards. A clause is inserted to include tripping by hands under the rule of tripping which formerly only covered tripping with the foot and legs.

STATE MOTORCYCLE MEET

The newly organized Associated Motorcycle clubs of California has practically completed plans for its Motorcycle day celebration to be held in Stockton on September 3 and 4. This celebration will be in conjunction with the annual F. A. M. convention which will meet in Stockton at that time. All of the streets of the city are to be decorated in F. A. M. welcome flags and pennants and on the evening of the 3rd there will be an illuminated motorcycle parade. Four California state championships will be run at the meet in addition to a number of other competitions.

LABOR DAY CONTEST

A 25-mile motorcycle wheel race is being planned for Labor day by the Sioux City (Ia.) Motorcycle club. Only professional riders will be permitted to enter the contest. Also all those who are unable to circle the track at a speed of 70 miles in an elimination test will be ruled out.

15,000 MILES AWHEEL

The Rev. Emil L. Camp, pastor of the North Side Presbyterian church of Chicago, has purchased a motorcycle on which he contemplates making a 15,000-mile missionary trip through India. Mrs. Camp will accompany her husband on the trip.

This year's annual endurance run of the Chesapeake Motorcycle club of Baltimore covered a distance of 200 miles. About 20 riders took part in the run.

It is said that Bob Crawford broke the half-mile motorcycle record at Marquette, Mich., when he recently circled the half-mile dirt track in 30.1 seconds.

## PUEBLO BULL DEPARTMENT SHOULD TAKE FEW LESSONS

Our Own Constables, Defeated Rival  
City Rusefoot Department by  
Total of 32 to 16

There was rejoicing and hilarity at the office of Chief Constable Stark in the basement of the city hall last night. And last night more than one policeman was sick at foot as he trod the pavements searching for speeders and other criminals.

The local police team displayed so much of the comeback spirit at the Zoological park yesterday afternoon in the annual baseball game with the Pueblo department that, after being defeated in the first two innings, they came back and won. The final score was 32 to 16, they admitted at headquarters last night.

The Pueblo team made a hard fight and scored eight runs in the second inning, badly handicapping the locals. "Jap" Austin, whose services as pitcher are drafted on occasions, because he is known as the Apollo of the city hall, lightened after that inning and sagged by less cheery support than Pueblo gave their pitcher, was able to cut down the runs to 16.

The Pueblo department came up in automobiles, bringing with them a bat 10 feet long. Umpire Ted Powell was able to prevent the use of this club by careful use of a 14-foot which he had swung near the pitcher's mound. With such cannon, the demon spawners and fish artist, was in his element. In the younger days, Powell romped the range searching for man-eating jackrabbits and soon became a daredevil with a pistol.

Chief Stark did not play yesterday but he sat in the grandstand. Springfield at short, Bruce as catcher, Rowan at second and Howard at third were the local stars.

The teams lined up as follows:  
Pueblo—Lover, r; Drake, ss; Charlatone, c; McDonald, lb; McDermitt, 3b; Connors, cf; Elliot, if; Swearingen, 2b; Fitzpatrick, p.  
Colorado Springs—Schleser, r; Webb, cf; Bruce, c; Austin, p; Rowan, 2b; Springer, ss; Homedoffer, if; Gates, lb; Howard, 3b.

Mixed Doubles Finals at  
Golf Club Today Ends

Annual Tennis Tourney

The final match in the mixed doubles division of the Colorado Springs Golf club open tennis tournament will be played this afternoon at 4 o'clock. Originally, it was intended to stage the match yesterday but owing to the slight illness of one of the contestants, Chairman F. A. Bissell announced a postponement until today.

In the final match, Miss Kessel and A. H. Ewing will meet Miss Hall and E. L. Kerbochian. It will be the best two out of three sets. The match, which will bring the tournament to a close, is expected to furnish some of the best tennis of the summer. A large gallery is expected.

This photograph shows the great western portal or entrance way of the huge Palace of Food Products. The half dome is known as the Half Dome of "Victory" and is 113 feet in height. Brilliant, glorious effects are employed in the vault of the Half dome, which was designed by Julian Gurnie, one of the most celebrated decorative artists in America. To the left are seen some of the ornamental shrubs that will be in bloom when the Exposition opens.

## PETER VOLO, WITH TOM MURPHY UP, BREAKS 2 RECORDS

Rung Three Fastest Heats in  
History of Turf, Peter  
Scott Sold

KALAMAZOO, Mich., Aug. 12.—Two world records were broken today by Peter Volo, driven by Tom Murphy, in winning the Hoggsham and Spirit of the Times futurity for 3-year-old trotters. His time of 2:04, 2:05, and 2:06 made them the fastest heats ever trotted by a stallion, the former record being 2:07, 2:08 and 2:02 made in 1910 by The Harvester.

The heats were also the three fastest by a 3-year-old trotter, the honor having been previously held by Lucia Spler, who went them in 2:07, 2:07, and 2:11 at Grand Rapids last week. Only second in importance was the race for the \$10,000 paper mile-purse for 2:11 trotters, won by Lassie McGowan, who took the second, third and fourth heats. Sienna won the first heat.

This was "Pop" Goetz day and the veteran driver delighted the crowd by driving home the winner in two events. He captured the Hoggsham and Spirit of the Times futurity for 2-year-old trotters with Sarkie Watts and drove Napoleon Direct to victory in the \$2,000 American Hotel stake for 2:18 trotters.

The fifth and sixth heats of the unfinished 2:08 trot resulted in a victory for Omar.

Tommy Murphy announced the purchase from Sanford Small, of Boston, the trotter Peter Scott by Peter the Great. The price was given at \$20,000.

National League

NEW YORK, Aug. 12.—The only clean hit which Salie allowed today was a triple by Burns which enabled New York to win the last game of the series with St. Louis, 3 to 2.

## EASY YEAR ON UMPIRES, SAYS MATHEWSON M'GRAW AND GRIFFITH ABANDON 'BAITING'

By FRANK G. MENKE

NEW YORK, Aug. 12.—Chris Mathewson, the world champion in a recent article stating this was an easy year for umpires, remarked that even his base, John McGraw, was "off" the umpire this year, and that John was a "good" umpire and "good" in his attitude toward the umpires.

Quid a number of persons will be surprised to hear this. Among those who will be one John McGraw, sometimes called "Mackay" McGraw and at other times "The Iron-Hind" McGraw. Some of the National league umpires will be surprised, too. To the best of their recollection, they have had to chase John from the pastime just about as often this year as ever before. And that means they've done some considerable chasing.

Perhaps what Chris meant to impart to the multitude was that John doesn't say as much to the umpires as he used to say in the dear old days that are dead. There may be some truth in that. The umpires in late years have come to know John. Just as soon as they declare a faint out or the other fellow safe, they look toward John. If they notice that he is about to open his mouth, they can anticipate what is coming, go them. So they just wave John from the pasture and thus save their feelings from injury by the harsh, cruel words that John once directed at a moment's notice.

Others Regard McGraw.

If the article that Chris wrote merely mentioned John's name as a party who no longer heckles the umpires, one might have gained the idea that Chris wrote that article just to get a stand in with his boss. But Chris didn't stop with lauding John as a reformed umpire-baiter. He mentioned the names of Clarke Griffith, the peppy leader of the Senators, and Frank Chance, the Yankee manager. He declared that "like McGraw," they no longer cause trouble for the umpires.

Griff is "off" the umpire—when the umpire once in a while. When Chance greets a ball, Chance presents himself and diligently pursues the business of blaming the umpire. Added years haven't taken the sting from his speech, and that is one of the reasons why Chance, in rule to practice, has been chased just as often this year as he was in the old club days.

## CLAIRVOYANTS

**PROF. GARIAND**  
1134 E. PINE ST. CHICAGO, ILL.  
THE GREATEST CLAIRVOYANT  
PSYCHIC, PALMIST AND YOGI  
MEDIATOR IN  
AMERICA.  
ARE YOU IN TROUBLE?

DISSATISFIED, WORRIED AND  
DISCOURAGED? IF SO, CONSULT  
PROF. WM. E. GARIAND.  
The only original. Is known from one  
state to another.

LEARN WHAT THE FUTURE  
HOLDS FOR YOU. The coming event  
which may ruin your life can be  
averted. A word of warning may pre-  
vent disaster. His clear spiritual in-  
sight can disclose the reason for your  
failures and show you how to suc-  
ceed.

HAS YOUR LIFE BEEN SHAD-  
DOWED BY SOME INFLUENCE FOR  
THE "EVIL" DAYS OF YOUR LIFE and its  
disaster? Do you often wonder why  
others succeed with so little effort,  
while you fail, although you strive so  
earnestly? PROF. GARLAND can un-  
derstand your life, the source of your  
troubles, that unseen yet mighty factor  
that turns gloom into sunshine and a  
hopeless struggle into a glorious tri-  
umph.

Give you been separated from the  
one you love and are you spending your  
days in the vain effort to forget?  
Hundreds have been united by PROF.  
GARLAND through the marvelous in-  
fluence of power at his command.

THE TRUTH OR NOTHING.  
FREE CONSULTATION.

PROF. WM. E. GARLAND tells that this is a mystery, a vast, complicated, profound mystery. Behind us is the irrevocable past, fast fading away, like receding waves broke upon the shores of time. Before us lies the unknown and unexpected future a future pregnant with doubt and perplexities—a future along whose pathways are hidden pitfalls, concealed quicksands

Without the least iota of egotism,

THE MAN OF THE CENTURY,"  
tending, in a pinnace alone, above  
all others, in comparison as lofty as  
the Pyramid of Cheops stands above  
the sands of the Libyan desert.

CONSULTATION.  
If one engages to do certain things  
and tells you that if he does not do  
certain things he will make no charge  
for his services, to be not making a

LOW FEE" "LOW FEE."  
I call your name, tell your age your  
occupation, tell what condition your  
business is in and how to promote  
it, tell you all about your wife busi-  
ness, sweetheart or lover, and how to  
be in the love of any one you desire.  
I tell you of any move, journey, specu-  
lation, position or change of any kind

to tell of certain past events  
to you exactly what your acquaint-  
ances think of you, who to trust and  
who to shun. I tell you whom and  
when to marry if at all, and give their  
name, age, occupation and disposition.  
In short, I tell you everything you  
wished to find out, and that, too, with-  
out asking you a question or you speak-  
ing a word.

IF YOU WISH HAPPINESS, CONSULT FROM JWM. E. GARLAND AND SONS.
